

CENTRIFUGAL ROOF FANS

Series
VENTS VKV

Centrifugal roof fans with vertical air exhaust and with maximum air capacity of up to **4700 m³/h at 50 Hz** and **5130 m³/h at 60 Hz**.

Series
VENTS VKH

Centrifugal roof fans with horizontal air exhaust and with maximum air capacity of up to **4700 m³/h at 50 Hz** and **5130 m³/h at 60 Hz**.

■ Applications

Exhaust ventilation system for various premises suitable for roof mounting. Compatible with Ø 200 to 500 mm air ducts. Suitable for any roof types as well as vertical ventilation shafts.

■ Design

The fan casing is made of steel with polymeric coating (VENTS VKV and VENTS VKH models), aluminum (VENTS VKVA, VENTS VKHA), galvanized steel (VENTS VKVz, VENTS VKHz).

■ Motor

2-, 4- or 6-pole single or three phase asynchronous external rotor motor and impeller with backward curved blades installed on the motor shaft. The motor is equipped with thermal overheating protection with automatic restart as well as ball bearings for long service life. For precise features, safe operation and low noise, each turbine is dynamically balanced while assembly. Motor protection rating IP 44.

■ Speed control

Both smooth or step speed control is performed by means of the thyristor or autotransformer controller. Several fans can be connected to one controller in case the total power and operating current do not exceed the rated controller values.

■ Mounting

The fan is mounted on the roof directly above the ventilating duct or shaft and is firmly fixed to the flat surface by means of a connecting plate. While mounting VKH fans directly onto the flat roof a supporting block shall be provided to prevent water and snow drops into the vent of the ventilation shaft. Electrical connection and installation shall be performed in compliance with the manual and circuit diagram on the terminal box. For connection of the fans to round air ducts use the following accessories: KKV damper, GVK flexible connector, FKV counter flange. For mounting of the fans to flat surface use the mounting frame RKV.

Model VENTS VKVA (aluminum)

Model VENTS VKHA (aluminum)

Fan overall dimensions:
